Contents Volume 54

Special Issue

Microstructural Modelling with Special Emphasis on the Use of Clays for Waste Isolation

R. Pusch, R.N. Yong and P. Grindrod

Session I. Modelling of Clay Microstructure

Introduction
R.N. Yong 1

Soil suction and soil-water potentials in swelling clays in engineered clay barriers
R.N. Yong 3

Fe(II)–Na ion exchange at interlayers of smectite: adsorption–desorption experiments and a natural analogue
G. Kamei, C. Oda, S. Mitsui, M. Shibata and T. Shinozaki 15

Unified molecular dynamics and homogenization analysis for bentonite behavior: current results and future possibilities
Y. Ichikawa, K. Kawamura, M. Nakano, K. Kitayama and H. Kawamura 21

Microstructural evolution of buffers
R. Pusch 33

The micro-structures of clay given by resistivity measurements
M. Fukue, T. Minato, H. Horibe and N. Taya 43

Cation exchange, interlayer spacing, and water content of MX-80 bentonite in high molar saline solutions
H.-J. Herbert and H.C. Moog 55

Investigation of the behaviour of bentonite by means of suction-controlled oedometer tests
M.V. Villar 67

Swelling properties of smectite up to 90°C: In situ X-ray diffraction experiments and molecular dynamic simulations
K. Kawamura, Y. Ichikawa, M. Nakano, K. Kitayama and H. Kawamura 75

Session II. Application of Microstructural Models

Introduction
R. Pusch 81

Overview of modelling of clay microstructure and interactions for prediction of waste isolation barrier performance
R.N. Yong 83

Inclusion of expansive clay behaviour in coupled thermo hydraulic mechanical models
H.R. Thomas and P.J. Cleall 93

Application of the general microstructural model to erosion phenomena — mechanisms for the chemical–hydrodynamic conversion of bentonite to a pumpable slurry in conjunction with retrieval
R. Sjöblom, P. Kalbantner, H. Bjurström and R. Pusch 109

Water permeability, water retention and microstructure of unsaturated compacted Boom clay
E. Romero, A. Gens and A. Lloret 117

Clay membrane made of natural high plasticity clay: leachate migration due to advection and diffusion
N. Foged and J. Baumann 129

Gas migration in clay barriers
S.T. Horseman, J.F. Harrington and P. Sellin 139

A multiple front propagation model for gas migration through clay
R.C. Brown 151

Mechanical interaction between swelling compacted clay and fractured rock, and the leaching of clay colloids
P. Grindrod, M. Peletier and H. Takase 159

Impact of microstructure on the hydraulic conductivity of undisturbed and artificially prepared smectitic clay

R. Pusch and J. Schomburg 167
Modelling the mechanical behaviour of expansive clays
E.E. Alonso, J. Vaunat and A. Gens 173

Session III. Chemical Aspects
Introduction
P. Grindrod 185
Experience from preparation and investigation of clay microstructure
R. Pusch 187
Retention of radionuclides by organophilic bentonite
J. Bors, S. Dultz and B. Riebe 195
Porewater chemistry in compacted bentonite
A. Muurinen and J. Lehikoinen 207
Modelling silicitation of a clay buffer subject to opposing temperature and hydration gradients
P. Grindrod, H. Takase and G.P. Wood 215
Diffusion mechanism of cesium ions in compacted montmorillonite
T. Kozaki, H. Sato, S. Sato and H. Ohashi 223
Sorption effects on cation diffusion in compacted bentonite
T.E. Eriksen, M. Jansson and M. Molera 231

Research Papers
A review of selected engineering geological characteristics of English Chalk
F.G. Bell, M.G. Culshaw and J.C. Cripps 237
A reliability based approach for evaluating the slope stability of embankment dams
R.Y. Liang, O.K. Nusier and A.H. Malkawi 271
A methodology for locating the original quarries used for constructing historical buildings: application to Malága Cathedral, Spain
E. Galán, M.I. Carretero and E. Mayoral 287
Shear wave velocities and primary influencing factors of Campi Flegrei–Neapolitan deposits
C. Nunziata, R. Mele and M. Natale 299
The porosity and engineering properties of vesicular basalt in Saudi Arabia
A.A. Al-Harthi, R.M. Al-Amri and W.M. Shehata 313
Monitoring of internal failure evolution in soils using computerization X-ray tomography
B. Shi, Y. Murakami, Z. Wu, J. Chen and H. Inyang 321

Book Review
Land Subsidence Case Studies and Current Research; Proceedings of the Dr. Joseph F. Poland Symposium of Land Subsidence, edited by J.W. Borchers — G.A. Kiersch and W.A. Hatheway 329
